

2009 IHCC Red Power Round-Up International 460 Tractor

The International-460 tractor was a versatile machine. The all-hydraulic front loader with heat-houser cab, rear tire chains and Fast Hitch rear blade, make this utility tractor unit a wintertime workhorse.

The one time production run of this tractor is being offered to all Case IH dealers and IH Collectors Club members.

In conjunction with the 2009 IH Collectors Club annual Red Power Roundup, the Wisconsin Chapter #4 of the IH Collectors proudly announces the 1/16 replica of the International-460 Utility tractor with loader. The 2009 show feature tractor series are IH Utility tractors. Learn more show info online at www.ihwisconsin.org

ZFN16181A
